PROFESSIONAL SUMMARY

Data Analyst and Power BI Developer skilled in Excel, SQL, Python, and automated data extraction. Experienced in building end-to-end analytics pipelines, translating raw unstructured data into clean datasets, and designing high-impact, interactive dashboards to drive business decisions.

CERTIFICATIONS

Microsoft Excel Skill Course	Nov 2025
Microsoft Power BI Skill Course	Nov 2025
SQL Course Skill Course	Nov 2025

TECHNICAL SKILLS

Languages: Python, MySQL
Tools: Power BI, Advanced Excel, Git, Jupyter Notebook, VS Code, Power Query
Libraries: Pandas, NumPy, Matplotlib, Seaborn, Plotly, ScraperAPI
Core Competencies: Data Cleaning, Web Scraping, DAX Measures, ETL Pipelines, Intelligence Dashboarding

EXPERIENCE

E-Commerce Operations SM Store 18	Nov 2025 – May 2026
- Managed day-to-day order processing and data flows across major marketplace platforms including Amazon, Flipkart, and Meesho. - Maintained and updated extensive product catalogs, ensuring consistent integrity across pricing matrices, stock levels, and technical inventory records. - Engineered structured Excel reporting templates to monitor stock levels, successfully mitigating overstocking risks and preventing platform stockouts. - Transformed raw operational logs into structured formats, laying the groundwork for downstream sales trend analyses and inventory performance insights.	

EDUCATION

Govt. Bapu College, Nowgong	Bachelor of Arts	— 2024 - Ongoing

PROJECTS

Starbucks Daily Sales Dashboard Multi Pages Report, Dynamic Filtering, Bookmarks	May 2026 - June 2026
The Starbucks Daily Sales Dashboard is an interactive Power BI project designed to analyze daily sales performance across Starbucks stores. The dashboard provides insights into orders, customers, revenue, and quantity sold while allowing users to switch between multiple visual themes.	
Uber Performance Insights Dashboard Multi Pages Report,	Apr 2026 - May 2026
- The Uber Performance Insights Dashboard is an interactive Power BI project designed to analyze ride bookings, revenue performance, customer behavior, vehicle utilization, and location-based trends. - The dashboard provides business stakeholders with a comprehensive view of operational performance through multiple analytical pages, dynamic filtering, bookmarks, and KPI tracking.	
E-Commerce Data Cleaning, Visualizations, Dashboard	Mar 2026 - May 2026
Built an end-to-end e-commerce analytics solution by cleaning raw transactional data, modeling datasets, and creating an interactive Power BI dashboard with revenue tracking, customer insights, return analysis, and business KPIs.	
Weather Analytics Dashboard WeatherAPI, Power Query, Advanced DAX Measures	Mar 2026 - Apr 2026
Built an interactive real-time weather analytics dashboard in Power BI using WeatherAPI integration, Power Query JSON transformation, and advanced DAX measures to visualize forecasts, AQI metrics, and multi-city climate insights.
